Salesforce Sales Cloud is a cloud-based application designed to help your salespeople sell smarter and faster by centralising customer information, logging their interactions with your company, and automating many of the tasks salespeople do every day.

Your team will spend less time on administration and more time closing deals. For sales managers, Sales Cloud gives real-time visibility into their team's activities, so forecasting sales with confidence is easy. Best of all, Sales Cloud is easy to use and customisable to the way your salespeople work.
